Additional Services Requested/Comments

Denote any external lesions or regions of note below.

<input type="checkbox"/> Dorsal	<input type="checkbox"/> Ventral
	

Fresh samples need to be refrigerated and sent in an insulated leak-proof container with ice packs overnight. Do not combine fresh and formalin-fixed samples in the same container. Submission of specimens for testing by C-PADS using any of our submission forms constitutes a contract for delivery of test results and associated interpretations to the submitter. The submitted specimens, as well as products, isolates, and data derived from them become the property of the Fishhead Labs. Submitted specimens will not be returned unless prior arrangements are made with the lab. Carcasses submitted for autopsy will only be released to registered pet cremation services. For submission questions and additional information please reach out to autopsy@nbvl.cc
